P purposity

Fayette Senior Services is now active on Purposity!

Make a difference with just one simple click!

The Purposity app is a simple way to do good in your community, connecting app users to people with needs through the participating organization.

Download the app and help us reach the needs of some of our most vulnerable clients. FSS will post needs as they arise for you to help make a difference in the lives of others!

Download the app from your app store or open your camera feature and hover it over the QR code above. The app will automatically be pulled up to download!

The Purposity app aims to fulfill the essential needs of Fayette Senior Services clients through their partnership. We are now live with needs posted and updated regularly, based on the requests we receive from clients. Simply visit our page to see what you can help with!

To join in this new innovative way to make a difference and support seniors in Fayette County, download the Purposity app from the App Store (iPhones) or Google Play Store (Androids). Search Purposity on the store, and select it to download. Once downloaded, open the app and create an account. Once logged in, the app will prompt you to choose your community. Select Fayette County under Georgia. The app will take you to the home screen and on the bottom, you'll see a list of items to select from. Choose Orgs and search Fayette Senior Services. Select our profile and click on the blue 'Follow' button to follow our organization.

Fayette Senior Services will be posting needs to be chosen from on a regular basis. The app will show our client's wish lists. When we identify a need of a senior we will submit it to our profile on the app and a notification will be sent out to our followers on the app. Users can choose how they'd like to support the need with one simple click. With just a few clicks from the convenience of your phone, you can satisfy needs ranging from a blanket or some slippers to keep warm to providing funding for assistance in rebuilding steps leading into their home for safety reasons. The app allows users to track their donation, showing them where it was used and the direct impact they've had for someone.
